CALCULATION REQUEST

ASPIRA® · TORICA® · TRIVA · DIFFRACTIVA® · TORICA*DIFF*

CUSTOMER DATA

Surgeon: _____ Phone: _____

Mail: _____ Fax: _____

IOL DESIGN

Location: capsular bag

- ◯ monofocal (1-piece)
- ◯ monofocal (3-piece)
- ◯ trifocal
- ◯ multifocal
- ◯ toric
- ◯ toric-multifocal

Additional options

- ◯ blue-light protection
- ◯ XL optic
- ◯ Safeloader®

PATIENT DATA

ID: _____ year of birth: _____

	Right (OD) mm	D	axis	Left (OS) mm	D	axis
K1						
K2						

Standard keratometry index **1.3375**

If other: _____

			Standard biometry: **IOLMaster** or **A-Scan Immersion**		
axial length				axial length	
phakic ACD			If other:	phakic ACD	
lens thickness				lens thickness	

(stable) subjective refraction

standard vertex distance 12.0mm

If other: _____

sph	cyl	axis	BCVA	sph	cyl	axis	BCVA

target refraction

SE	sph	cyl	SE	sph	cyl

planned induced astigmatism and incision angle

D	axis	D	axis

previous eye surgery?

additional information				additional information
	☐	refractive surgery	☐	
	☐	keratoplasty	☐	
	☐	other	☐	

Disclaimer of warranty: On the basis of biometric data previously determined and provided by medical specialists, HumanOptics Holding AG calculates non-binding IOL-recommendations. All recommendations are merely approximate values based on general experience and a calculation algorithm. They do not entitle the user to employ it without verification in practice. No liability is assumed for medical accuracy, direct, indirect or consequential damages related to the recommendations.
